Combine uncompromising Security with a Smartphone in a Class of its own

BlackBerry® Balance™

Together but separate. BlackBerry® Balance in the new BlackBerry® Z10 protects your personal information and keeps it separate from your business data. Switch easily between your profiles with a simple swipe.

BlackBerry® Hub

Never more than a touch away: from any app, or any chat – it is easy to take a peek at your messages with the BlackBerry® Hub. You can quickly answer or just swipe back.

BlackBerry® Z10 with Flick Typing

The new touchscreen BlackBerry® Keyboard provides an effortless typing experience. It learns your writing style and suggests words to help you type faster, more accurately and with the least amount of effort.

And if you tend to mistype certain letters, the keyboard will remember and subtly adjust to make sure you hit the right key.
